## TEACHER’S ROLE TO BE THE BEST EDUCATOR

**Resource- One** of the top roles a teacher must fill is that of resource specialists. The teacher is the one who must know how to find what the student is looking for. Once the teacher has given the information to the student or coworker, he or she will often have to instruct the student on how to use the information.

**Support- Students** are the ones who need support when learning a new skill or piece of information. A teacher must act as the support person when the student needs this help. In professional circles, a teacher may even have to support other teachers leading a particular subject matter.

**Mentor- One** of the biggest roles a teacher may have is that of a mentor. Students look up to teachers and may pattern their own behavior and work ethic to match the instructor.

**Helping hand- Teachers** who are active in the school will often have more jobs than just the one they were hired to perform. Often, the goals of the teacher will match the direction that the school is taking.

**Learner- One** last important role a teacher must fill is that of a learner. Anyone who has been involved in a profession long enough knows that there is always something new to learn. A teacher will be challenged everyday with a new task that will help them grow into a better person.

A teacher is a person who will have to fill many roles. Anyone seeking to be a teacher should take advantage of any chance they get to grow as a person and as a teacher.
